Preview w11\_28.md

### W11-P1: Supabase Database setting

The screenshot shows the Supabase 'Database Settings' page. It includes fields for 'Project ID', 'Database name', 'Host', 'User', and 'Password'. The 'Database name' field is highlighted with a red box.

### W11-P2: Connecting Supabase

The screenshot shows a code editor with Supabase client code. The code includes imports for Supabase and SupabaseClient, and a function to connect to the database. The function is highlighted with a red box.

# W11-P4: Connect Supabase from local pgAdmin, restore midprep\_xx.tar
